PROFESSIONAL OBJECTIVE

To work as a Full Stack Developer in the systems development field, contributing to the development of web and mobile applications — frontend, backend and AI solutions — with a focus on performance, scalability and development best practices.

EDUCATION

Systems Analysis and Development — Universidade Tiradentes

PROFESSIONAL EXPERIENCE

AjuLabs — Aracaju/SE

August/2025 – Present • Home Office

Position: **Full Stack Developer**

I work on the development of web and mobile applications, in frontend, backend and AI solutions, applying React, React Native, Next.js, TypeScript, Python, FastAPI, Tailwind CSS, Shadcn/UI, Storybook and Liquid, as well as RAG, AI Agents and architectures such as Feature-Sliced Design (FSD) and MVVM, with a focus on performance, scalability and development best practices.

Sergipe Technology Park (SergipeTec) — Aracaju/SE

January/2025 – June/2025

Position: **Systems Development Trainee**

Worked as part of a team on the development of systems for the State Bank of Sergipe (Banese), focusing on banking fraud analysis and prevention. Responsible for developing an anti-fraud portal capable of detecting anomalies in banking transactions using machine learning techniques, contributing to increased security and efficiency of internal processes. Project developed in React, FastAPI, Python and MongoDB, using Figma for interface prototyping.

People and Services Management (GPS) — Aracaju/SE

July/2022 – July/2023

Position: **Administrative Assistant**

Customer service, document organization and report preparation. Appointment scheduling, inventory management and purchase orders. Data entry and updating, project support and expense control.

ADDITIONAL TRAINING

- Banese Track — 1st Phase ([view certificate](#))
- Banese Training Track — 2nd Phase ([view certificate](#))
- Python — Web Scraping ([view certificate](#))
- Advanced Python ([view certificate](#))
- Git and GitHub ([view certificate](#))
