PROFESSIONAL OBJECTIVE

To work as a Full Stack Developer in systems development, contributing to the development of web and mobile applications — frontend, backend, and AI solutions — with a focus on performance, scalability, and best development practices.

ACADEMIC EDUCATION

Systems Analysis and Development — Tiradentes University

PROFESSIONAL EXPERIENCE

AjuLabs — Aracaju/SE *August 2025 – Present • Remote*

Position: Full Stack Developer

I work on the development of web and mobile applications, in frontend, backend, and AI solutions, applying React, React Native, Next.js, TypeScript, Python, FastAPI, Tailwind CSS, Shadcn/UI, Storybook, and Liquid, in addition to RAG, AI Agents, and architectures such as Feature-Sliced Design (FSD) and MVVM, with a focus on performance, scalability, and best development practices.

Sergipe Technology Park (SergipeTec) — Aracaju/SE *January 2025 – June 2025*

Position: Systems Development Trainee

Worked as part of a team developing systems for the Bank of the State of Sergipe (Banese), focusing on the analysis and prevention of banking fraud. Responsible for developing an anti-fraud portal capable of detecting anomalies in banking transactions using machine learning techniques, contributing to increased security and efficiency of internal processes. Project developed using React, FastAPI, Python, and MongoDB, with Figma used for interface prototyping.

Gestão de Pessoas e Serviços (GPS) — Aracaju/SE *July 2022 – July 2023*

Position: Administrative Assistant

Customer service, document organization, and report preparation. Appointment scheduling, inventory management, and purchase orders. Worked on data entry and updates, project support, and expense control.

ADDITIONAL TRAINING

- Banese Track — Phase 1 ([see certificate](#))
- Banese Training Track — Phase 2 ([see certificate](#))
- Python — Web Scraping ([see certificate](#))
- Advanced Python ([see certificate](#))
- Git and GitHub ([see certificate](#))

LANGUAGES

English — B1/B2 (Upper Intermediate) • Wizard (2018–2022; resumed in 2025, expected completion in 2027)
